

City of Baltimore

Mayor's Office of Information Technology Enterprise Geographic Information Services

Samantha Corbin
EGIS Supervisor
Samantha.corbin@baltimorecity.gov
410.396.4106

Mayor
Stephanie Rawlings-Blake

Operational Objectives:

MapStat: Provide City-wide coordination of the selection, deployment and investment in geographic technologies and data collection through the systematic oversight of City requests for proposals, contracts and projects that involve geographic information and technologies.

One City – One Map: Integrate multiple City land base maps into a single common and shared digital map and database. Define and enforce policies and standards for City-wide GIS database design and application implementation. Maintain up-to-date mission critical land base data.

Geographic Data Warehouse: Manage the City's land base. Collect geographic information from agencies and manage it's distribution via Map Servers on the City's communication network. Provide access to a consistent and up-to-date version of City geographic data.

Digital Map Products: License Baltimore digital map products and distribute to external organizations based on an approved fee schedule.

Support and Training: Support all City agencies in the use of geographic data and technologies to enhance agency capabilities and create self-sufficient functional GIS units within agencies.

MOIT/EGIS Core Services

1. Coordinate City investment in, and deployment of, Citywide geographic information and technology.
2. Manage the City's Geographic Data Warehouse through a clearinghouse for geographic data.
3. Maintain the City's land base data (streets, parcels, buildings, management areas, etc.).
4. Distribute geographic information internally and externally.
5. Support agencies in their efforts with technical assistance, project involvement and training.

Public Web Mapping

- Link to iMap is on the Baltimore City governments website:
www.baltimorecity.gov
- Located under Interactive Maps on the Home Page
- A variety of additional mapping applications are also available such as Fighting Crime online, Visit Baltimore, and Baltimore City Art & Culture

Eat Smart Baltimore!

Baltimore, MD. (July 22, 2010),
Mayor Rawlings-Blake Joins Kids at Summer Camp

Mayor Stephanie Rawlings-Blake joined students participating in this year's

Link to Public Web Mapping Application from the City's Homepage

st 20, 2010. Children ages 18
a week during the summer

that serve as a foundation for
nkful to our partners for

Based on the current conditions of the economy, the city estimates that 825,000 lunches and 650,000 breakfasts will be served this summer. Over the 44-day period, the program will feed more than 30,000 children per day. 2010 marks the first year the program has collaborated with the Family League to offer dinner at 33 selected locations...
